HOLIDAY HOMEWORK
(2018-19)

Dear Parent

'Exciting time is here again! It's time for Summer Vacation and fun filled activities'.

Children are reservoirs of potential which needs to be tapped and channelized in diverse ways. We at GIS feel that it is very important to fire their imagination and foster an outlook that helps them explore, discover and rediscover. Children should be encouraged to develop intellectually and physically. Summer Vacation is the best and fruitful time for learning and for nurturing creativity. It is the time when you can connect with your child in many ways. The Holiday Homework designed would not only enhance achievements of your children but also help to enhance family relationships. It would teach your child to work independently and would improve their basic academic skills, such as reading, writing, and spellings and would help them develop personal skills and time management. A few suggestions that you may keep in mind.

- ❖ Have at least two meals together with your children. Teach them about the importance and hard work of the farmers. Ask them not to waste their food.
- ❖ Allow them to help you in cooking. Let them make their own fruit/vegetable salad.
- ❖ Take them to your workplace and let your child understand that you work very hard to support the family.
- ❖ Visit the grandparents and let your children bond with them. Their love and emotional support is very important for your child.
- ❖ Allow your child to play outdoors, get hurt and get dirty. It's okay for them to fall down and experience pain once in a while. Comfortable life will make your child lazy.
- ❖ Get story books with colourful pictures for your kids.
- ❖ Keep your children away from TV, Mobile phones, Computers and other electronic gadgets.
- ❖ Look into the eyes of your little one and thank God for giving you one wonderful gift. In a few years from now, they will be soaring to greater heights. As parents, it is important to invest your time with them now.

Good wishes for a marvellous vacation!
